

NEWSLETTER | APRIL 2016

Perfect warewashing technology for professional kitchens.

SPARKLING RESULTS

The Kiss My Glass competition which was run at this year's Constantia Fresh was a fun and novel way for consumers to interact with our brand. Using the hashtag #kissmyglass on our Social Media platforms visitors were asked to post their pictures and hashtag the wine farm from which they were tasting, to stand a chance to win a case of wine from that farm and for the farm to win the use of one of our Winterhalter Under Counter glass washers. Congratulations to Jessica Christie & Klein Constantia!

PRICE POWER PERFORMANCE

Leading British equipment manufacturer Classeq has been developing quality warewashers for over four decades and has recently launched a revolutionary new rack conveyor dishwasher, the CST 100.

The CST 100 has been innovatively designed with the hospitality and catering sector in mind, with easy-to-use single button controls which makes operation quick and simple – an essential aspect for any busy catering outlet.

CST 100
machine.

FIRST TIME FIX

Winterhalter, and its sister brand Classeq, are proud to manufacture some of the most trustworthy ware washers on the market, however even our machines require regular maintenance or they become susceptible to reduced performance, damage and breakdown.

With this in mind Winterhalter SA is pleased to welcome on board its first directly employed service technician, Oupa Dibakoane.

“Our business has grown phenomenally over the last few years and it is now the right time for us to expand and add to our service offer” says Brandon Park, General Manager of Winterhalter SA. “We aim to offer our customers, distributors and end users alike, the unrivaled backup service you would expect from a market leading brand and having Oupa on board will put us further ahead of the competition.” he continues.
